### Marshfield Mudlite Route Description

The Marshfield Mudlite route has been modified for 2018 to add in a short climb towards the end which we hope will make for a more challenging race.

The race starts 100 hundred metres from Marshfield Cricket Club on Ashwicke Road. It heads away from the centre of Marshfield village (this is the opposite direction to the Marshfield Mudlark) down Ashwicke Road for approximately 400m where the route turns right onto Ayford Lane.

Runners will run along this road where the route turns right onto a bridleway at 1.6kms. The route follows the bridleway to its end where it meets Beeks Lane at 2.9kms. Runners will then turn left and immediate right onto another bridleway. The route will follow this bridleway down and then continues up a short climb towards Green Lane before turning right, over a stone stile, into a field and on to another via a kissing gate. The route crosses this second field to exit onto St. Martins Lane at 4.2kms. Runners will then turn right and follow the road back towards the finish at the cricket club for a total distance of 4.5kms.
